

VIRUS ALERT!

Pineville Communication Systems wants to help Defend You Against Cyber Attacks.

When you access the Internet, you may potentially be under attack by hackers who are spreading harmful email and pop-up campaigns and scams designed to capture your personal information (known as “Phishing”)

See reverse for more information.

Protect yourself against cyber attacks and scams that target you via email, pop-up windows, etc. By following these simple rules:

1. **DO NOT** click on any links in an email from an unknown sender.
2. **DO NOT** click on an email or pop-up from an unknown sender.
3. **DO NOT** supply any information on the website that may open, if you clicked on a link in email.
4. **DO NOT** open any attachments that arrive with email.
5. **DO NOT** give account information, credit/debit card information to untrusted sources via email.

WHEN IN DOUBT, CALL US. Pineville Communication Systems **DOES NOT** contact customers by email to verify service information or to request payment via email. We have secure payment methods in place and any questions about service can be addressed by contacting our office at **704-889-2001**.

If you think you have been victim of a scam, check your credit history and watch your bank accounts. Contact your financial institution for details.

If you do not have a virus protection software on your computer, call us today.

For more guidance on recognizing an email scam, visit the FTC Website: <http://www.consumer.ftc.gov/articles/0003-phishing>
